

Lucy Liu

Interaction Designer · UX Designer · Creative Technologist

New York, NY | w/3512@nyu.edu | (778) 883-5388 | lucyliu.xyz | linkedin.com/in/lucyliuxyz

EDUCATION

New York University, Tisch School of the Arts Expected May 2029

BFA, Interactive Media Arts · Minor, Business of Entertainment, Media and Technology (NYU Stern) · Major GPA 3.94

EXPERIENCE

Founder & Creative Director Apr 2023 – Present

Somped (@sompednyc), Licensed Tooth Gem Studio · New York, NY

- Founded and operate a licensed cosmetic design studio; designed 80+ bespoke client looks with a referral-driven client base.
- Built the brand system, booking flow, marketing, and client management process end to end as a solo operator.

User Experience Designer (Volunteer) Nov 2025 – Present

Pediatric Speech-Language and Literacy Services, LLC · New York, NY

- Design a pediatric health literacy website with mini-games, animations, and visual guides with a Neural Science researcher and IMA design partner.
- Conduct research with children and caregivers, translating literacy barriers into age-appropriate interactions, readable type hierarchies, and navigation designed against attention-span constraints.

Resident VJ / Visual Artist May 2026 – Present

Studio Maison Nur · New York, NY

- Hold a weekly Thursday residency performing live audio-reactive visuals for Demon Nights, hosted by DJ Diablo.
- Built a custom TouchDesigner network projected venue-wide, recalibrating frequency and kick-detection thresholds on-site weekly so visuals track each set in real time.

SELECTED PROJECTS

Driftwood · AI Ethics Game Spring 2026

Solo Designer & Developer · NYU IMA

- Shipped a browser-based game where players adopt a virtual pet and unknowingly trigger its AI failure modes via real-time emotion detection.
- Built five pets with distinct personas, each mapped to a model flaw (sycophancy, gaslighting, hallucination) fired by a matching detected emotion.
- Ran mid-build interviews revealing the chatbot format felt clinical; rebuilt it as a full-screen pixel pet environment, improving session retention.
- Exhibited as a playable demo at the NYU Bronfman Center and IMA Spring Show 2026; ~76% of visitors identified their pet's flaw unprompted.

p5.js · face-api.js · GPT-4o-mini · Web Audio API · Figma · Interaction Design · Usability Testing · AI Safety

Eternal Wreckening · Mobile Horror Game 2024

Interaction Design & Art Direction

- Designed a 4v1 multiplayer mobile horror game on gyroscope-driven full-body movement, making device orientation the primary input instead of thumb controls.
- Designed the full UI system (joystick placement, button ergonomics, inventory, wayfinding) around the constraint that both hands control orientation.

Figma · Photoshop · InDesign · Gyroscope UX · Game UI · Design Systems · Ergonomics · Art Direction

HabitaBull Lifting · Fitness Habit App · End-to-End UX Research & Design 2024

- Led the full UX process for a weightlifting app targeting drop-off (71% of users abandon fitness apps within 3 months).
- Ran desk research across 6 competing apps and 6 interviews; synthesized 3 behavioral archetypes and 6 How Might We statements, then built user flows for 4 core tasks and low-fidelity prototypes grounded in Autonomy Theory.

H2Know · IoT Plant Care System · UX Research & Product Design 2024

- Designed an IoT plant care system pairing Arduino moisture sensors with a companion social app; research drove plant thought bubbles tied to live moisture data, a friend leaderboard, and a rewards loop.

SKILLS & TOOLS

Design Figma, Adobe Creative Suite, TouchDesigner, interactive prototyping, micro-interactions, design systems, WCAG accessibility

Research User interviews, usability testing, competitive analysis, personas, user flows, journey mapping, design critique

Technical JavaScript, HTML/CSS, p5.js, face-api.js, Python, C++, Arduino, Git, LLM APIs and prompt design

Languages English (Native), Mandarin (Native)
